Patient Instructions for Doxy.me
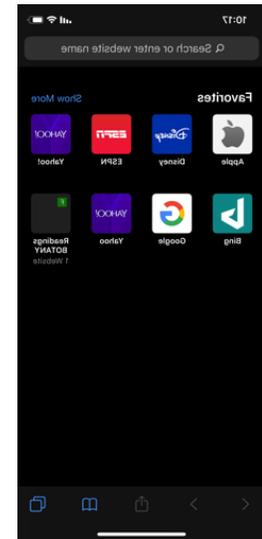

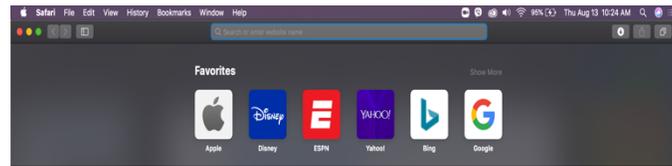

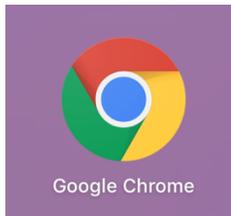

Preparing for your Telehealth Appointment

- You will need a smartphone, computer, or tablet that has a camera and microphone
- Make sure you have a good internet connection
- Be in a quiet, well-lit, and private space
- Be sure to log in a few minutes before your scheduled time

1

**Your doctor should have sent you their personal room link. Click on the link.**

If you did not receive the link via email, open a web browser on your device (e.g. Google Chrome, Safari, Firefox). Enter your doctor's personal room link in the web address bar and press enter.
*call your doctor for his personal link if you do not have it*

2

Type in your full name in the box, click "Check In."

3

Click "Give access to camera and mic." You are now in the waiting room. Your doctor will start the call.
